Manggis Garden E No.4 Rt 04/04, Gn. Sarik, Kuranji, Padang, Sumatera Barat, Indonesia

I am a graduate of the Informatics Management program, majoring in Information Technology at the Padang State Polytechnic. I have experience in Web Development and Android App Development. I am currently enhancing my knowledge in Web Programming using the Laravel Framework and developing Android applications using the Flutter Framework. I have the ability to analyze, solve problems, and think creatively, and I can adapt and communicate effectively with teams.

Work Experiences

PT. Digital Angkasa (Codelabs Indonesia) - South Tangerang, Indonesia   Feb 2025 - May 2025

Internship

Codelabs is a smart IT solutions provider specializing in the development, implementation, and maintenance of Mobile Applications (Android, iOS, Windows Mobile), Web Applications, and Desktop Applications.

- Designed and developed cross-platform mobile applications using Flutter, focusing on responsive UI and smooth user experience.
- Collaborating with backend developers and UI/ UX designers to integrate APIs and ensure seamless user experiences across platforms
- Collaborated in an Agile team environment, participating in sprint planning and daily stand-ups, while writing clean, maintainable Dart code with proper documentation.
